Career Summary

I'm a passionate website professional with a particular interest in front-end development. I have been in the web industry for over 10 years and have created websites and animations for various companies such as Ajilon, Ypsilon Agrochemicals, and for numerous other companies in the sectors of Agriculture, Architecture, Real Estate, Restaurants, Online Jewellery Stores, Medical, Transportation, Legal Offices, Hotels, and many others.

A few examples of my works can be found on my portfolio website: <http://www.tedlalakas.com>

If you're looking for an experienced, hardworking website developer / designer then look no further.
